**PRESIDENTS OFFICE MEMORADUM #11-06**

**To:** All Members  
**From:** Wally Poppe, President  
**Date:** January 20, 2011

**Re:** Building Thermostats

I would like to take this time to remind all members that the thermostats in the Engine and EMS Bays are not to be set over 53 degrees. If an Officer decides to adjust the thermostat for training or other events that he/she deems necessary then they shall do so. When the training or event is over with, the thermostats should be reset to the 53 degrees setting.

The Discipline Board will deal with any member that is caught adjusting the thermostats without justification.

Any questions are to be directed to the Presidents Office.
